

## CAPSULE SUMMARY SHEET

Survey No.: M:28-58 (PACS 9.16) Construction Date: Between 1941 and 1944  
Name: Oakton Associates Incorporated Property  
Location: 100 Ashton Road, Ashton, Montgomery County

Private/Commercial/Occupied/Fair/Yes:restricted

### Description:

The Oakton Associates Incorporated Property is a 1-story, 3-bay side-gable structure on the north side of Ashton Road in Ashton, Montgomery County. The building has an enclosed shed roof porch on the front elevation and two full-width shed roof rear additions. The building was constructed on the site between 1941 and 1944. The building is not depicted on the 1941 USGS quadrangle or any earlier map. The structure first appears on the 1944 USGS quadrangle. According to a caretaker of the property, the building was constructed from parts of older buildings. The building has operated as an antique store. The structure is of wood-frame construction. The main section and enclosed front porch are supported on concrete piers and have wood clapboard siding. The main roof is covered with asphalt roll roofing, while the front porch has a standing-seam metal roof. The two rear shed roof additions have poured concrete block foundations and a standing-seam metal roof. The first addition is covered with wood siding and the second addition has a wood shingle exterior. The windows are primarily wood 6/6 double-hung. The main roof has two ventilators at the roof ridge and an exterior brick chimney is located on the rear elevation.

### Significance:

The land of the Oakton Associates Incorporated Property is historically associated with the Stabler family. Since the mid-nineteenth century, a large farm north of the intersection of Ashton Road and New Hampshire Avenue belonged to Philip Stabler and was known as Willow Heights. In 1964, Maurice and Cynthia Stabler sold 62 hectares (163.688 acres) of land to Robert McKeever, Ralph Queen and Loche Gauthier. An 8 hectare (20.194 acre) parcel was bought by the Oakton Associates Incorporated in 1985. According to a caretaker of the property, the building incorporates parts of older buildings. The building was assembled on the property beginning between 1941 and 1944. The land is used as a nursery, while the building for the past several decades has operated as an antique store.

Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

The Oakton Associates Incorporated Property is a 1-story, 3-bay side-gable structure on the north side of Ashton Road in Ashton, Montgomery County. The building has an enclosed shed roof porch on the front elevation and two full-width shed roof rear additions. The building was constructed on the site between 1941 and 1944. The building is not depicted on the 1941 USGS quadrangle or any earlier map. The structure first appears on the 1944 USGS quadrangle. According to a caretaker of the property, the building was constructed from parts of older buildings. The building has operated as an antique store.

The structure is of wood-frame construction. The main section and enclosed front porch are supported on concrete piers and have wood clapboard siding. The main roof is covered with asphalt roll roofing, while the front porch has a standing-seam metal roof. The two rear shed roof additions have parged concrete block foundations and a standing-seam metal roof. The first addition is covered with wood siding and the second addition has a wood shingle exterior. The windows are primarily wood 6/6 double-hung. The main roof has two ventilators at the roof ridge and an exterior brick chimney is located on the rear elevation.

There is one outbuilding associated with this property. A shed is located west of the house. Constructed circa 1945, the wood-frame building is supported on brick and concrete block piers and has a shed roof covered with asphalt roll roofing. The exterior is covered with wood shingles and plywood.

The property is located on the north side of Ashton Road, with open space to the north and east, residential property to the south and commercial property to the west.

Prepare both a summary paragraph of significance and a general statement of history and support.

The land of the Oakton Associates Incorporated Property is historically associated with the Stabler family. Since the mid-nineteenth century, a large farm north of the intersection of Ashton Road and New Hampshire Avenue belonged to Philip Stabler and was known as Willow Heights. In 1964, Maurice and Cynthia Stabler sold 62 hectares (163.688 acres) of land to Robert McKeever, Ralph Queen and Loche Gauthier. An 8 hectare (20.194 acre) parcel was bought by the Oakton Associates Incorporated in 1985. According to a caretaker of the property, the building incorporates parts of older buildings. The building was assembled on the property beginning between 1941 and 1944. The land is used as a nursery, while the building for the past several decades has operated as an antique store.

The Oakton Associates Incorporated Property is located in Ashton. The community of Ashton in northern Montgomery County was, until 1890, a part of neighboring Sandy Spring and shares that town's early Quaker roots. Ashton centers roughly on the intersection of MD 650 (New Hampshire Avenue) and MD 108 (Olney-Sandy Spring Road) where early Quaker farmers brought their produce to be weighed. The crossroads also attracted Caleb Stabler and Charlie Porter who opened a store around 1860 and named it Ashton. The actual significance of this name is uncertain. In 1889 Alvin G. Thomas, a Quaker, took over the Ashton store. This community commenced its official existence when it received a post office in 1890, taking its name from Stabler and Porter's store.

Twentieth century development in Ashton featured the community's rural character. In fact the first "development" in 1934 consisted of six "farmettes" complete with a small orchard and barn, and room for gardening and animals. Further developments undertaken since World War II, such as Ashton Pond and Ashmead, often took shape as planned communities under the supervision of local, as well as outside developers. Current county zoning, which requires lots of 2 hectares (5 acres), has helped preserve the rural nature of Ashton.

The building on the Oakton Associates Incorporated Property is an vernacular structure. Between 1870 and 1940 the vernacular cottage style was typically built for Americans of modest means. They are characterized by simple ornamentation and mass-produced components, such as door frames, moldings, sash and window units, and porch decoration. The development of post-Civil War machinery capable of producing large amounts of standardized housing elements, such as those found in cottages, contributed greatly to the development of the modern American housing

## 8. Significance (Continued)

industry. Designs for vernacular cottages were obtained from popular magazines, such as House Beautiful, or carpenter's and builder's journals, such as American Builder. A variety of front-gable, side-gable, cross-gable and hipped roof frame cottages were developed in the early to mid-twentieth century. Front-gable and hipped roof cottages are primarily 1 to 1½-stories tall, 3-bays wide and several rooms deep. Side-gable and cross-gable structures are usually 2 to 2½-stories tall, are typically 2 to 3-bays in width and vary from one to three rooms deep. They usually include a porch covered with a shed roof. Porches are supported by posts often containing machine-produced Victorian ornamentation. Some cottages feature ornamentation drawn from Craftsman style or Colonial Revival architecture (Gottfried and Jennings 1988, viii-xv).

### National Register Evaluation:

Constructed between 1941 and 1944, the Oakton Associates Incorporated Property is not eligible for the National Register of Historic Places. The property is not eligible under Criterion A, as research conducted indicates no association with any historic events or trends significant in the development of national, state, or local history. Historic research indicates that the property has no association with persons who have made specific contributions to history, and therefore, it does not meet Criterion B. It is not eligible under Criterion C, as it lacks material and architectural integrity due to the enclosure of the front porch and the two rear additions. The property is also not eligible under Criteria Consideration B for moved properties, as the building does not retain integrity of design, materials or workmanship, and does not retain enough historic features to convey its architectural significance. Finally, the structure has no known potential to yield important information, and therefore, is not eligible under Criterion D.
